3. Detailed Notice Inviting Bid (DNIB)

Manipur Renewable Energy Development Agency (MANIREDA)

2nd Floor, South Block, Secured Office Complex, Near 2nd MR Gate, Imphal-Dimapur Road, Imphal-795001

Telefax : 0385-2421594, e-mail : manireda99@yahoo.com Website : www.manireda.com

NIB No. : MANIREDA/SSL/G/2017/11

Date: 19/05/2017

- Sub : (i) Design, manufacture & supply of White LED-based Solar Street Lighting System of 40 Wp SPV Module
(ii) Installation & Commissioning and
(iii) Maintenance & Performance Warranty Contract (MPWC) for 5years at an areas of Manipur State..

Dear Sir/Madam,

Manipur Renewable Energy Development Agency (MANIREDA), Imphal has the pleasure in inviting offers from eligible Indian manufacturers for the above work with your best binding price offer as per specifications and terms & conditions mentioned in the bid document. Salient features of the bid document are given below:

1. Bid Document

- 1.1 This Bid Document comprises of total 20 chapters including Proformas. In addition, any other documents/ instructions/amendments/revisions issued by MANIREDA to the bidder till the due date of opening of the bids shall also be deemed to be integral part of the bid document. Failure to furnish all the information as per the bid document in every respect will be at the bidder's risk.

2. Cost of Bid Document

- 2.1 Bidders can download the Bid Document from Manipur E-Tender website (www.manipur tenders.gov.in) and MANIREDA website (www.manireda.com) and submit the cost of the bid document amounting Rs 1000/-, as applicable along with Technical Bid.
2.2 Bid applications without the cost of bid document will be rejected.

Exemption from deposition of cost of Tender : Exemption from deposition of cost of Tender will be allowed for Firms having both MSME and NSIC Certificates. Sufficient proof in support of claim for exemption of cost of tender as prescribed in Govt. of India Notification and other competent authority including certificate of NSIC & MSME is to be attached with the Bid.

3. Earnest Money

- 3.1 The bidder should submit in Technical Bid the earnest money in the form of Demand Draft from a Nationalised Bank/scheduled bank of requisite value as mentioned in chapter 2 (Bid Details).
3.2 Bidders failing to submit earnest money will be rejected.
3.3 The request for adjustment of earlier dues in place of earnest money will not be entertained.
3.4 The earnest money shall be returned to all unsuccessful bidders in technical evaluation, within three weeks.
3.5 The earnest money shall be forfeited if –
a. Any bidder withdraws his bid or resides from his offer during the validity period.
b. The successful bidder fails to furnish his acceptance of the Order within twenty days of placement of Work Order by MANIREDA.
c. The bidder fails to successfully complete the work within the stipulated time frame. Delay in completion due to extreme and unavoidable situations will have to get approved by Director, MANIREDA. This approval will also have a cut-off date by which the entire work will have to be completed.
3.6 The earnest money shall be refunded to the successful bidder after completion of the project in all respect.

Exemption of Earnest Money Deposit:

In case of claim for exemption from deposition of Earnest Money, sufficient proof in support of claim for exemption of EMD as prescribed in Govt. of India Notification/Manipur Govt.'s Notification is to be attached including certificate of NSIC & MSME with the Bid.

4. **Security Deposit:** Security Deposit @ 5% of the total contract value is to be deposited on acceptance of the Work Order within 7days, of which Earnest Money Deposit shall be adjusted and the balance required amount has to be deposited physically by Demand Draft/Bank Gurantee in favour of Director MANIREDA from a Nationalised Bank/scheduled bank in order to make up full Security Deposit. Security Deposit shall be released on completion of the project.

5. Performance Guarantee

- 5.1 Performance Warranty Bond shall be deposited by the supplier @5% of the Contract Price excluding Installation & Commissioning and Maintenance and Performance Warranty Contract (MPWC) in the form of Bank Guarantee for 5(five) years period from the date of completion & commissioning of the project OR in case Bank Guarantee is not furnished, 5% of the Contract price excluding Installation & Commissioning and MPWC shall be retained as Performance Guarantee. If the solar power plant failed to perform as per laid down system specifications or any deviations/compromise has been observed in the system specifications etc the Performance Warranty deposit of the firm shall be forfeited. . **The successful bidder/Contractor shall submit the Original Warranty documents of SPV Modules, Luminaire and Battery to MANIREDA during the supply of the systems.**

6. Submission of Bids:

Bidders have to upload the document mentioned in Para 6.1 in the e-tender website (<https://manipur tenders.gov.in>). Bidders shall also have to submit hard copies of the uploaded documents as well as stated at Para 6.4 & 6.5:

- 6.1 Bidders are advised to submit their bids strictly based on the specifications, terms and conditions contained in the bid document and subsequent revisions/amendments, if any.
- 6.2 The bid shall be prepared and submitted by typing or printing in English with indelible black ink on white paper in consecutively numbered pages duly signed by the authorized signatory with company seal affixed on each page. Any part of the bid, which is not specifically signed by the authorized signatory and not affixed with company seal, shall not be considered for the purpose of evaluation.
- 6.3 Original copy of bid document, amendments/revisions to bid document, including minutes of meeting(s), issued by MANIREDA, if any, shall be signed and submitted along with the bid.
- 6.4 All the Proformas must be on the bidder's official letter head. Any change in wording of the Proforma will lead to rejection of the bid application.
- 6.5 The offer shall contain no erasures or overwriting except as necessary to correct errors made by bidder. Such corrections, if any, shall be initialed by the person signing the offer.
- 6.6 Hard copy of Bid Document should be submitted in Hard Bond or Spiral Binding .
- 6.7 The Bid Document should have proper paging and flagging of Annexures/details .
- 6.8 Any Overwriting /illegible/erasing, etc. in the documents submitted by the firms shall not be accepted and will not be considered in the evaluation.

2.0 Opening and Evaluation of Bids

- 2.1 The Technical Bids and Financial Bids will be opened on the date and time mentioned in the tender website in the **Office of the Director, MANIREDA, 2nd Floor, South Block, Secured Office Complex, Near 2nd M.R Gate Imphal-Dimapur Road, Imphal-795001** in presence of bidders or their authorized representatives who choose to attend the meeting. The representative should produce authorization letter to attend the bid opening meeting in the Proforma -2.
- 2.2 MANIREDA, if required, may at its discretion obtain clarifications on offers by requesting clarifications from any or all the bidders at any time prior to Financial Bid opening. Such request for clarification and the response shall be in writing.

- 2.3 MANIREDA shall examine whether the bid is complete in all respects and conform to the stipulated requirement of the technical specifications and tests reports. The bid having material deviation shall be rejected as being non-responsive.
- 2.4 The Financial Bid of only those bidders, whose Technical Bids are found qualified after evaluation, will be opened and evaluated. In case of deviation in the date and time of opening of the Financial Bid from what is given in the Bid Detail, the date & time for opening of the Financial Bid will be uploaded on MANIREDA website. Bidders are requested to visit the website (www.manireda.com) regularly and keep themselves informed.
- 2.5 The prices shall be evaluated for Solar Street Light on the Total Price (P):- (a) System cost including CST, insurance, transportation etc. FOR at identified sites (b) Installation & Commissioning including VAT, Labour Cess, Service Tax, etc. and (c) MPWC for 5 years period including Service Tax).
- 2.6 The bidders shall be ranked L1, L2, L3as per the Total Price (P). The work order will be issued subject to the acceptance of the bidders to supply at approved rate.
- 2.7 MANIREDA, if required, may at its discretion extend the scheduled date of opening of Financial Bid.

3.0 Award of Contract/Work Order

- 3.1 The contract/work order shall be awarded to the bidder whose financial Bid was acceptable and who is selected by the Departmental Tender Committee of MANIREDA/Higher Tender Committee to undertake the work at the approved rate and on approval of the Chairman, MANIREDA.

4.0 Quantity Required

- 4.1 The capacity required as given in the Bid Details of Notice Inviting Bid is tentative and is subject to increase or decrease depending upon the actual requirement at the time of placing order and resources available.

5.0 Effective Date of Contract

- 5.1 The effective date of commencement of execution of the order by the selected contractor shall be the date of issue of the Purchase/Work Order whichever is earlier.

6.0 Contract Price

- 6.1 The total contract price and 5 years MPWC. in full and complete set including SPV module, control electronics & inverter, battery, mechanical components, etc. should be quoted in Proforma - 9. The price shall be for the total scope as defined in this document.
- 6.2 The income tax shall be deducted as applicable at the existing rate.
- 6.3 During the period of the contract, MANIREDA may order addition/deletion in quantities/capacities which the bidder shall comply. The adjustment in Contract Price shall be made at the same unit rate as per Price Schedule (Proforma - 9).

7.0 Terms of Payment

- (a) 70% of the total work order value (excluding installation, commissioning and MPWC charges) shall be released against delivery of goods in full and in good condition (or materials for 350 set) subject to availability of fund from MNRE, GOI or other sources, on submission of the following:-
1. Certificate of Supply of SSL received by the consignee as specified.
 2. Commercial invoice of the supply made in triplicate.
 3. Copy of delivery challan/transportation challan/lorry receipt
 4. Material Inspection Certificate.
- (b) Remaining 30% of the contract price (excluding installation, commissioning and MPWC charges) and 100% of installation, commissioning charges shall be paid against duly verified Completion Report with successful installation and commissioning of the systems subject to availability of fund from MNRE, GOI or other sources.
- (c) All payments shall be released by MANIREDA through account Payee Cheque issued in favour of the Supplier/Contractor or e-payment through RTGS/account transfer as the case may be for which the following mandatory information is to be furnished;

Name of the firm to whom payment is to be made	Name of bank	Bank Branch address	Account Number	Type of account	MICR Code	IFSC code	PAN No.
--	--------------	---------------------	----------------	-----------------	-----------	-----------	---------

- d) MPWC charges shall be released on 5 equal yearly installments on satisfactory performance. The record of performance sheet duly attested by the authority of the area of Manipur shall be submitted to MANIREDA on quarterly basis, by 15th of the next month.

8.0. Submission of Completion Report:

The Completion Report in triplicate shall be submitted in prescribed format of MNRE,GOI. In addition, the following documents shall also be submitted in order to pass bill for payment:

1. Certificate of installation & commissioning of SSL received by the consignee as specified in Proforma – 7 in the Bid document.
2. Details of the module, battery & luminaire utilization report of SSL installed under the SPV Program as specified in Proforma-9 in the Bid document.
3. Commercial invoice of the supply made in triplicate.
4. Copy of delivery challan/transportation challan/lorry receipt.
5. Verification of Certificate of Commissioning from the beneficiary countersigned by officer concerned.
6. Photographs along with details of module, battery, Luminaire, etc. installed in soft copy(CD/DVD).

9.0 Income Tax :

- 9.1 Without prejudice to the obligations of the Supplier/Contractor under law, any Income Tax, which MANIREDA may be required to deduct by law/statute, shall be deducted at source and shall be paid to the Income Tax authorities on account of the Supplier. MANIREDA shall provide the Supplier a certificate for such deduction of tax.

10.0 Statutory Variations in Taxes and Duties:

- 10.1 The adjustment in the Contract Price towards imposition of new taxes or abrogation of existing taxes due to statutory variation shall be applicable only if the new tax is enacted or existing tax is abrogated within contractual delivery/execution period. For any upward variation due to enactment of new tax or abrogation of existing tax after contractual delivery/execution period, adjustment in the Contract Price shall not apply, although for any downward variation, MANIREDA shall make necessary adjustment in the rate of the items.
- 10.2 The Supplier shall bear and pay all liabilities in respect of statutory variations in taxes and duties and imposition of new taxes and duties that may be imposed after the contractual delivery/execution dates, as originally stipulated, in case the delivery dates are extended due to reasons attributable to Supplier.

11.0 Agreement:

- 11.1 The Supplier/Contractor(s) have to enter into an agreement within two weeks, in the office of the Director, MANIREDA in prescribed format before commencement of supply/services.

12.0 Inspection of the Factory and Tests:

- 12.1 MANIREDA reserves the right to inspect the manufacturer's works/factory to ascertain the capability/availability of necessary equipment & infrastructure required for manufacture of the item offered before opening of the Financial Bid of the bidders.
- 12.2 MANIREDA shall have access and right to inspect the work or any part thereof at any stage.
- 12.3 MANIREDA shall have the right to inspect and test the goods to confirm their conformity to the technical specifications after delivery of goods to consignee.
- 12.4 Successful bidder shall inform MANIREDA at least 25 days in advance of schedule dispatch.

13.0 Dispatch Instructions:

- 13.1 All items/equipments may be subjected to pre-dispatch inspection by Director, MANIREDA or its authorized representative(s) as per relative standards/provisions approved by MANIREDA before dispatch of items. Cost of inspection by officials (not more than two) would be borne by the successful bidder.

14.0 Transit Insurance:

- 14.1 Transit Insurance shall be arranged by the Supplier for his total supplies. In case of any damage/loss/pilferage/non-delivery during transit, the Supplier shall lodge the claim and

settle the claim with the insurance agency. The Supplier shall also arrange replacement of the damaged, lost/pilfered items expeditiously pending settlement of commercial implications with insurance agency, if any, so as not to hamper the working of the system. The resultant loss if any due to failure of Supplier to comply with the above shall be to the account of the Supplier.

15.0 After Sales Service and Availability of Spare Parts:

15.1 The Supplier shall depute authorized Service Engineer within 3 days from the date of the intimation of fault, and establish sufficient inventory of spares, technicians in the State in consultation with MANIREDA to provide satisfactory and uninterrupted services during the guarantee/ MPWC period for which a servicing centre must be established at Imphal. Address, contact number etc. of the Servicing centre must be submitted before commencement of the work.

16.0 Completion Schedule:

16.1 The delivery of goods at FOR destination in full as per the terms and conditions of the contract/order shall be completed within two(2)months. Installation and commissioning shall be done within three(3)months and **five (5) months shall be duration for completion of the project in all respect.** The completion schedule shall start from the date of issue of the Work Order.

17.0 Guarantee/Warranty Period:

17.1 The manufacturer must provide guarantee which include servicing & replacement guarantee for parts and components (such as battery, electronics, inverter etc) of Solar Power Plant for 5 (five) years. For PV modules, it must be warranted for its output peak watt capacity, which should not be less than 90% at the end of 10 years and 80% at the end of 25 years from the date of commissioning the SPPs at site & demonstration of performance to the consignee/MANIREDA.

17.2 The guarantee card to be supplied with the system must contain the details of the system supplied as given in the Proforma - 6. The manufacturers can also provide additional information about the system and condition of guarantee as necessary.

17.3 Supplier/contractor shall without prejudice to any other clauses of the order repair/replace the defective parts and restore the system to satisfactory working/performance within 7(seven) days of intimation of fault without any additional cost to MANIREDA within the period of guarantee/ MPWC.

18.0 Assignment/Sub Letting/Pre Bidding Tie Up:

18.1 The Supplier/contractor shall not assign or sub let, manufacture, shop testing, packing & forwarding, transportation, transit insurance and supply, in whole or part, its obligations to any third party to perform under the order/contract.

18.2 In the event the Supplier contravenes this condition, MANIREDA reserves the right to reject the equipment/work sub-contracted and procure the same from elsewhere at Supplier's risk and cost. The Supplier shall be solely liable for any loss or damage which MANIREDA may sustain in consequence or arising out of such replacing of the contract work.

18.3 In case, the installation & commissioning and MPWC is planned to be carried out in collaboration with other party, the bidder has to sign MoU with the party on a Non-judicial stamp paper of value not less than Rs. 100/- and submit a copy of the MoU along with the bid. The MoU shall clearly indicate division of scope of work between the prime bidder and his sub-vendor and terms of payment. However, the total responsibility of work will remain with the prime bidder.

19.0 Liquidated Damages for Delay in Completion:

19.1 The completion period for the assignment must carefully be worked out and all resource & work planning is to be done accordingly with flexibility for adjustments.

19.2 If the Supplier fails in the due performance of the contract to deliver and commission any part of the equipment or complete the work within the scheduled date for any reason other than due to Force Majeure conditions or any extension thereof granted to him by MANIREDA, he shall be liable to pay to MANIREDA as pre-agreed liquidated damages but not by way of penalty on account of delayed successful commissioning, a sum equal to 0.1% of total contract value per 3weeks of such delay, or part thereof, subject to maximum of 5% of the Total Contract Value.

19.3 The liquidated damages for delayed completion shall be recovered from the Supplier's

Bill/Bank Guarantee deposited as earnest money.

19.4 Deductions/payment of liquidated damages shall in no way relieve the Supplier from his contractual responsibility to complete the works.

20.0 Cancellation of Order :

20.1 MANIREDA will be at liberty to terminate in part or full the awarded contract without prejudicing its rights and affecting the obligations of the Contractor by giving seven (7) days notice in writing in the following events:

(a) If the Supplier is found defaulter for delayed supply or failure to deliver satisfactory performance or supply of substandard materials pursuant to NIB conditions.

(b) If the Supplier/Vendor fails to comply with the provision(s) of the contract including the responsibilities to fulfill the 5 years maintenance and performance warranty contract as per the provisions mentioned in this bid document.

(c) If the Supplier/Vendor is involved in any action of moral turpitude.

21.0 Arbitration :

21.1 All disputes or differences, whatsoever, arising between the parties out of or in relation to the construction, meaning and operation or effect of this contract or breach thereof shall be settled amicably.

21.2 If, however, the parties are not able to resolve them amicably, the same shall be settled by arbitration in accordance with the Rules of Arbitration of the Indian Council of Arbitration and Conciliation & Arbitration Act 1996 and the award in pursuance thereof shall be binding on the parties.

21.3 The venue of arbitration proceeding shall be within Jurisdiction of Court of Law at Imphal only.

21.4 Work under this contract shall be continued by the Supplier during the arbitration proceedings, unless otherwise directed in writing by MANIREDA or unless matter is such that the work cannot possibly be continued until the decision of the Arbitrator is obtained.

22.0 Force Majeure :

22.1 Should at any time during the continuance of the contract the performance in whole or in part of any obligations by either party under this contract be held up by reasons of any war, hostility, acts of foreign enemy, civil commotion, sabotage, fires, floods, earthquakes, explosions, epidemics, cyclones, quarantine restrictions, Governmental regulations, law & order and other proclamation etc. (hereinafter referred to as "Events") then, provided notice of the happening of any such eventuality is given by either party to the other within 15 days from the date of occurrence thereof neither party shall, by reasons of such eventuality, be entitled to terminate this contract, nor shall either party have any claim for damages against the other in respect of such non-performance or delay in performance, and the work under this contract shall be resumed as soon as practicable after such eventuality has come to an end or ceased to exist.

22.2 Should one or both the parties be prevented from fulfilling their contractual obligations by a state of force majeure, lasting continuously for a period of at least four (4) weeks, the two parties should consult each other regarding the further implementation of the contract.

22.3 The above-mentioned force majeure conditions/clause shall also apply in the works of sub-contractors/suppliers of the contractor.

22.4 However, the Supplier shall not be liable for liquidated damages or termination/cancellation of order/contract if and to the extent that its delay in performance or other failure to perform its obligations under the contract is the result of an event of force majeure.

5. Technical Specification

WHITE-LED (W-LED) BASED SOLAR STREET LIGHTING SYSTEM

1. DEFINITION:

A stand alone solar photovoltaic Street Lighting System(SLS) is an outdoor lighting unit used for illuminating a street or an open area. The Solar Street Lighting System consists of solar photovoltaic (SPV) module, a luminaire, storage battery, control electronics, inter-connecting wires/cables, module mounting pole including hardware and battery box. The luminaire is based on White Light Emitting Diode (W-LED), a solid state device which emits light when electric current passes through it. The luminaire is mounted on the pole at a suitable angle to maximize illumination on the ground. The control electronics (including charge controller and LED driver) fixed inside a luminaire. The PV module is placed at the top of the pole at an angle facing south, so that it receives solar radiation throughout the day, without any shadow falling on it. The battery is placed in a box and attached to the pole. Electricity generated by the PV module charges the battery during the day time which powers the luminaire from dusk to dawn. The system lights at dusk and switches off at dawn automatically.

2. BROAD PERFORMANCE SPECIFICATIONS:

PV Module	40 Wp under STC
Battery	Sealed maintenance free Tubular GEL type VRLA, 12V/40 AH @ C/10, Max DoD: 75%.
Light Source	White Light Emitting Diode (W-LED), 7 Watt(Max.), W-LED Luminaire, dispersed beam, soothing to eyes with the use of proper optics and diffuser
Light Output	Minimum 16 Lux when measured at the periphery of 4 meter diameter from a height of 4 meter. The illumination should be uniform without dark bands or abrupt variations, and soothing to the eye. Higher light output will be preferred.
Mounting of light	Minimum 4meter (from ground level) pole mounted
Electronics (Charge controller and LED driver) Efficiency	Minimum 85 % total. The charge controller should be of MPPT type with MPPT efficiency more than 85 %.
Duty Cycle	Dusk to dawn
Autonomy	3 days or Minimum 42 operating hours per permissible discharge

3. DUTY CYCLE:

The LED solar street lighting system should be designed to operate from dusk to dawn, under average daily insolation of 4.45 kWh/Sq.m./day on a horizontal surface.

4. PV MODULE:

- (i) Indigenously manufactured PV module should be used.
- (ii) The PV module should have crystalline silicon terrestrial solar cells and must have a certificate of testing conforming to IEC 61215 Edition II/BIS 14286 from an NABL or IECQ accredited laboratory.
- (iii) The power output of the module under STC should be a minimum of 40Wp at a load voltage* of 16.4 ± 0.2 V.
- (iv) The open circuit voltage* of the PV modules under STC should be at least 21.0 Volts.
- (v) **The module efficiency should not be less than 12 %.**
- (vi) The terminal box on the module should have a provision for opening for replacing the cable, if required.
- (vii) There should be a Name Plate fixed inside the module which will give:
 - a. Name of the Manufacturer or Distinctive Logo
 - b. Model or Type Number
 - c. Serial Number
 - d. Month and year of the manufacture

(viii) **A distinctive serial number starting with NSM will be engraved on the frame of the module or screen printed on the tedlar sheet of the module.**

(ix) Monogram of MANIREDA along with following details in English script shall be screen printed in indelible ink or paint on the back side of each PV module:

- Solar Photo Voltaic Programme 2016-17 (W-LED Solar Street Light)
- Not for sale or transfer
- Statutory action would be taken by MANIREDA, if it is found sold or transferred under different Sections of IPC

* The load voltage and Voc conditions of the PV modules are not applicable for the system having MPPT based charge controller.

5. BATTERY (Tub ular Gel type VRLA):

- (i) The battery will have a minimum rating of 12V, 40Ah at C/10 discharge rate.
- (ii) At least 75 % of the rated capacity of the battery should be between fully charged & load cut off conditions.

(iii) Battery should conform to the latest BIS/International standards. **Manufacturer must provide a**

qualification test report/ certificate of the battery conforming to the relevant latest BIS/

International standards from an NABL/IECQ accredited Laboratory

6. LIGHT SOURCE:

- (i) The light source will be of white LED type with wider view angles of a minimum of 120° or more. The colour temperature of white LED used in the system should be in the range of 5500° K – 6500° K.
- (ii) W- LEDs should not emit ultraviolet light.
Manufacturer must submit the lux distribution profile of the system. The luminaire should also conform to the Standard IEC 60598 (General requirements and tests of luminaire)
- (iii) The light output from the white LED light source should be constant throughout the duty cycle.
- (iv) The lamps should be housed in an assembly suitable for outdoor use. The housing of the luminaire should be of aluminum pressure die-cast and must conform to IP 65. **The manufacturer must provide a test report/ certificate on conformity of the luminaire to IP 65 from an NABL/IECQ accredited laboratory. The entire electronics including the LED driver and charge controller must be integrated inside the luminaire.** The name of manufacturer should be embossed on the aluminum body of the luminaire.
- (iv) The luminaire life time should be >50,000 hrs. Manufacturer must submit a declaration in this regard **as per the IESNA L-70 standard.** The total degradation in the light output should not be more than 30 % after 50000 burning hours.
- (vi) The temperature of heat sink should not increase more than 20°C above ambient temperature during the dusk to dawn operation.
- (vii) The individual LED should be either from OSRAM or PHILIPS or NICHIA or CREE or Citizen or Seoul Semiconductor make. Make, model number, country of origin and technical characteristics of the white LEDs used in the lighting system must be furnished by the manufacturer.

7. ELECTRONICS:

- (i) The total electronic efficiency of the LED driver should be at least 85%.
- (ii) Electronics should operate at 12 V and should have temperature compensation for proper charging of the battery throughout the year.
- (iii) The light output should remain constant with variations in the battery voltages.
- (v) System voltage: 12VDC.
- (vi) No load current: <20mA.

- (vii) The PV module itself should be used to sense the ambient light level for switching ON and OFF the lamp.
- (viii) The PCB containing the electronics should be capable of solder free installation and replacement.
- (ix) Necessary lengths of wires/cables, switches suitable for DC use and fuses should be provided.

8. ELECTRONIC PROTECTIONS:

- (i) Adequate protection is to be incorporated under “No Load” conditions e.g. when the lamp is removed and the system is switched ON.
- (ii) The system should have protection against battery overcharge and deep discharge conditions. The numerical values of the battery set points i.e. load cut off, load reconnect and charge regulation voltage must be specified. Load reconnect should be set at a value when the battery is 80% charged.
- (iii) Protection/Fuse should be provided to protect against any load short circuit and open circuit conditions.
- (v) A blocking diode should be provided as part of the electronics, to prevent reverse flow of current through the PV module(s), in case such a diode is not provided with the PV module.
- (vi) Full protection against open circuit, accidental short circuit and reverse polarity should be provided.
- (vii) Electronics should operate at 12 V and should have adequate temperature compensation arrangement for proper charging of the battery (as recommended by the battery manufacturer) throughout the year.
- (viii) Adequate protection should be provided against Battery reverse polarity.
- (ix) Enclosure protection of the luminary must be IP 65 type to prevent the corrosion.
- (x) **All the LEDs used in the luminary must be connected in a way to have a fail short mechanism in order to avoid the catastrophic failure of the system in case any of the LED fails.**

9. MECHANICAL COMPONENTS:

- (i) **As a precautionary measures against pilferage/theft, the battery should be top pole mounted i.e. to be attached to the pole just below the luminary. The pole should have the provision to hold the luminaire and battery and the foundation and mechanical strength of the pole must be capable to withstand the entire structure from strong wind (minimum upto 150 km/hr) or any other natural forces.**
- (ii) **All the nuts & bolts to be used for the system should be lock nut & bolt (anti- theft nut & bolt) and made of stainless steel.**
- (iii) The pole of the street lighting system shall be made of hot dip galvanized MS tubular type 4.5m height from ground level after installation and upper part having 104mm (min) outer diameter, 4mm (min) thickness. The pole shall be of hot dip galvanized of thickness at least **60 micron**. The battery box is to be fixed on the pole very rigidly. The battery box with battery shall be kept at least 4.0 m height from the ground level. The battery box should be made of Galvanized iron sheet and must have a corrosion free powder coating. The luminary bracket (cross arm) shall also be made of hot **dip galvanized iron** of suitable size and to be fitted with pole with provision of adjusting of luminary height with 360^o movement. The structures shall be designed for simple mechanical and electrical installation. It shall support module and battery box with battery and transfer the mechanical loads to the ground. The structure for mounting the panel to be made of aluminum. The system shall have to be so designed to withstand wind velocity maximum 150km/hr. and adverse weather condition prevailing in Manipur. **The manufacturer must provide a certificate of compliance in this regard.**
- (i) It should be possible to mount the light source on a metallic arm attached to the pole in order to achieve the defined lighting levels as per the Indian road lighting standard.

- (ii) A vented GI metallic box with acid proof corrosion resistance powder coating for housing the storage battery outdoor should be provided. The battery box should be strong enough to hold the 12V/40 AH, battery with proper clearance for future maintenance work. Top surface of the battery box made to be slightly inclined to avoid accumulation of water. Front side of the battery to be engraved "LED SLS-MANIREDA (No. & year)". The battery box shall have to be designed from security point of view ensuring that terminals of battery are not short-circuited.
- (iii) **Installation and foundation:** The height of the pole length should be 4.50mtrs. From the ground level with suitable concrete foundation of mixture (1:2:4) having size (457X457X800mm). The pole should be embedded minimum 610 mm below from existing GL. Adequate provision should be kept for servicing and maintenance.

10. OTHER FEATURES:

- (i) The system should be provided with 2 LED indicators: a green light to indicate charging in progress and a red LED to indicate deep discharge condition of the battery. The green LED should glow only when the battery is actually being charged.
- (ii) The system body should have a name Plate and should provide the following details :
 - (a) Name of the Manufacturer or Distinctive Logo.
 - (b) Model Number
 - (c) Serial Number
 - (d) Year of manufacture
- (iii) Necessary lengths of wires/cables, switches and fuses should be provided as per the relevant BIS standard

11. QUALITY AND WARRANTY:

- (i) **The complete White LED Solar Street Lighting system (including the battery) will be warranted for a period of 5(five) years from the date of supply.**
- (ii) **The PV module(s) will be warranted for a minimum period of 25 years from the date of supply.** The PV modules must be warranted for their output peak watt capacity, which should not be less than 90% at the end of Ten 10(ten) years and 80% at the end of 25(Twenty five) years.
- (iii) Components and parts used in White LED Solar Street Lighting systems should conform to the latest BIS/International specifications, wherever such specifications are available and applicable.
- (iv) The Warranty Card to be supplied with the system must contain the details of the system.

12. OPERATION and MAINTENANCE MANUAL:

An Operation, Instruction and Maintenance Manual, in English and the local language, should be provided with the Solar Street Lighting System. The following minimum details must be provided in the Manual:

- (a) Basic principles of Photovoltaics,
- (b) A small write-up (with a block diagram) on Solar Street Lighting System – its components, PV module, battery, electronics and luminaire and expected performance.
- (c) Type, Model Number, Voltage & capacity of the battery used in the system.
- (d) The make, model number, country of origin and technical characteristics(including IESNA LM-80 report) of W-LEDs used in the lighting system.
- (e) About charging and significance of indicators,
- (f) Clear instructions about erection of pole and mounting of PV module(s) and lamp housing assembly on the pole,
- (g) Clear instructions on regular maintenance and trouble shooting of solar street lighting system,
- (h) DO's and DONT's,
- (i) Name and address of the contact person for repair and maintenance, in case of non-functionality of the solar street lighting system.

6. FIVE YEARS MAINTENANCE & PERFORMANCE WARRANTY CONTRACT (MPWC)

1.0 The Maintenance and Performance Warranty Contract (MPWC)

- 1.1 After the works are awarded to the successful Bidder/Bidders, he/they enter into a Maintenance & Performance Warranty Contract (MPWC) with MANIREDA which includes the scope of operation and maintenance of the W-LED SPV Street Lighting system for a period of 5(five) years. The date of MPWC period shall begin from the date of actual commissioning of the Solar Power Plant. The Maintenance & Performance Warranty Contract shall include servicing & replacement guarantee for parts and components (such as SPV Module, Battery, Luminaire, etc.) of W-LED Solar Street Light for 5 years from the date of installation. For PV modules, the replacement guarantee is for 25 years.
- 1.2 The Contractor should keep a trained person permanently (present round the clock) for day today operation, troubleshooting, maintenance etc. at the worksite during the MPWC period of 5 years.
- 1.3 The Contractor should also train a person preferably staff/authority of the beneficiary institution if required for day today checking, troubleshooting, maintenance etc. in order to facilitate easy function of the system after MPWC period.
- 1.4 The maintenance service provided shall ensure proper functioning of the W-LED SPV Street Light as a whole. All preventive/routine maintenance and breakdown/corrective maintenance required for ensuring maximum uptime shall have to be provided by the Contractor. The Contractor shall furnish a Performance Report duly attested by the authority of Beneficiary Organisation alongwith the hard copy/printout of the daily performance data of the Plant for every quarter (3 months) shall be submitted to MANIREDA quarterly within 15th day of following month during the MPWC period. If the contractor fails to submit half yearly performance report of each of every Solar Street Lighting System within the stipulated 15 days, a penalty @ Rs5/- per system shall be imposed for every month delayed.
- 1.5 The Maintenance and Performance Warrantee Contract (PWMC) shall have two distinct components as described below.

2.0 Preventive/Routine Maintenance

- 2.1 This shall include activities such as, cleaning and checking the health of the W-LED SPV Street Light, cleaning of module surface, checking of all electrical connections, Checking of module mounting structure, checking of batteries including cleaning & greasing of battery terminals and any other activity that may be required for proper functioning of the system as a whole.

3.0 Breakdown/Corrective Maintenance

- 3.1 Whenever a complaint is lodged by the user, the bidder shall attend to the same within a reasonable period of time 3 days and in any case the breakdown shall be corrected within a period not exceeding 7 days from the date of complaint.
- 3.2 The bidder shall maintain the following facilities at the local Service Centre for ensuring highest level of services to the end user;
 - (i) Adequately trained manpower, specifically trained by the bidder for carrying out the service activities.
 - (ii) Adequate provisions for record keeping, which shall inter-alia, include the following:
 - (a) Details of system supplied within the command area of the service station including full name and address of end user, system and sub-system serial numbers and records of routine maintenance carried out (duly signed by the end user).
 - (b) History record sheets of maintenance done.
 - (iii) Adequate spares and manpower for ensuring least down time of an individual system.
 - (iv) The Service Center shall send summary service reports to MANIREDA on

quarterly basis. These reports shall include the following information:

- (a) Number/Type of components of the system covered by the Service Center.
- (b) Number/Type of components/systems working satisfactorily on the reporting date.
- (c) Number of complaints received during the period of reporting.
- (d) Number of complaints attended during the period of reporting.
- (e) Major cause of failure, as observed
- (f) Major replacement made during the reporting period. Separate report shall be submitted for each type of systems manufacture wise in case the service center caters to the requirement of more than one manufacture.

- 3.3 The records maintained at the Service Center shall be available from time to time to MANIREDA.
- 3.4 The date of MPWC maintenance period shall begin on the date of actual commissioning of the SPV systems. If during the MPWC period, the system becomes non-functional due to any defect or shortage of spares etc. for a period more than 1 week then the time duration of this non-functional period will be extended in the MPWC period.
- 3.5 Any payment for release of MPWC charges will not be entertained without the Performance Report duly attested by the authority of Beneficiary Organisation.
- 3.6 Bidder shall furnish details of infrastructure that are presently available for establishing of Service Centers.
- 3.7 The servicing Centre shall have a live Mobile/landlineNumber for Contact from/to Beneficiaries organization.

Forwarding Letter

NIB No.: MANIREDA/SSL/G/2017/11

To,

The Director

Manipur Renewable Energy Development Agency (MANIREDA),
2nd Floor, South Block, Secured Office Complex, Near 2nd M.R Gate, Imphal-Dimapur Road,
Imphal-795001.

Sub: Offer in Response to Notice Inviting Bid No. MANIREDA/SSLs/ZP(IW)/2016/ for (i) Design, manufacture, shop testing, packing & forwarding, transportation, transit insurance, supply of 40Wp SPV Module W-LED Solar Street Lighting system at identified sites via transit godown of MANIREDA for checking/store entry, (ii) installation, testing & commissioning of 40Wp SPV Module W-LED Solar Street Lighting system at identified sites (iii) 5 years Maintenance & Performance Warranty Contract (MPWC) in the state of Manipur.

Sir,

With reference to the above we are submitting this offer after having fully read and understood the nature of the work and having carefully noted all the specifications, terms & conditions laid down in the bid document. This offer is hereby submitted in sealed envelopes duly marked as indicated below:

(Technical Proposal): Submitted in original

The Financial Proposal is submitted online in e-tender

We also confirm that:

2. We are an Indian company/firm.
3. The components of SPV systems shall be indigenously manufactured.
4. We have never been debarred from executing similar type of work by any Central/ State/ Public Sector Undertaking/Department/Nodal Agency.
5. The Bid Document is downloaded from MANIREDA website and necessary document in support is enclosed.
6. We shall execute the offer/work order as per specifications, terms & conditions of the Bid Documents on award of work.
7. Our offer shall remain valid for placement of purchase orders up to 365 days from the due date of submission of offer.
8. If at any time, any of the declarations submitted by us is found to be false, our offer or order is liable to rejection.

Yours faithfully,

(Signature of Authorized

Signatory)

Authority Letter for Attending Bid Opening Meeting & Signing Bid Document

NIB No.: MANIREDA/SSLs/G/2017/11

Date:.....

To,

The Director
Manipur Renewable Energy Development Agency (MANIREDA),
2nd Floor, South Block, Secured Office Complex, AT Line, Near Hotel Imphal,
Imphal-795001.

Sub: Authority Letter for Attending Bid Opening Meeting & Signing Bid Document.

I hereby authorize (Name & Designation) to attend the **Bid Opening Meeting & sign the Bid Document** (*tick wherever applicable or tick both, if same person is to attend*) to be held on..... at MANIREDA on behalf of our company.

He is also authorized to provide clarifications/confirmations, if any, and such clarifications/ confirmations shall be binding on the company. The specimen signature of is attested below.
